For a European Industrial Renaissance

- ▶ Extra-EU markets represent a significant growth potential also for the whole PTW sector
- ▶ A realistic additional 1 million exported PTWs could reconstitute the EU production level of the early 2000's
- ▶ And contribute to the EU 20% target of industry's share in Europe's GDP by 2020
- ▶ Provided that we progress towards the key objectives of last week's EC Communication "For a European industrial renaissance"
 - ▶ *"Simplify the legislative framework and improve the efficiency of public administration at EU, national and regional levels.*
 - ▶ *Easier access to third country markets through harmonisation of international standards, open public procurement, patent protection and economic diplomacy are also key issues."*
